Good afternoon. This is Superintendent Dr. Darrell Floyd and this message is for EPS families. Today, the state Board of Education did accept State Superintendent Joy Hofmeister’s recommendation to close Oklahoma school buildings through the end of the year.

Please know, however, that learning will continue. Enid Public Schools is developing a plan to ensure all students have the opportunity to continue to grow academically safely at home with parental support. We also are exploring ways to provide more access to technology for those who may not have the options they need. Our plan will be flexible so that it will work for all students, and we will share the details with you as soon as they are available.

I know this is an unprecedented situation, and people have worries and questions about this change. I understand your concerns, but I know, as a community and as a district, we can find solutions to this problem. We must for our students.

I especially want to say a word to the Class of 2020. This is disappointing, it’s frustration and it is not fair. Please don’t let it diminish your accomplishments and your excitement about graduation ... because we won’t. It is our sincere hope that we can give you the ceremony and celebration you deserve as soon as our state’s medication professionals determine it safe to do so. We won’t forget you. We promise.

Until then, though, we need everyone to do what the CDC has recommended to protect your health: wash your hands; stay at home, if you can; and practice social distancing. Even in this challenging time, we will continue to learn and grow together ... even while we have to be apart. Thank you for trusting us to care for and teach your child, and thank your support of Enid Public Schools.
